Writing

Nowadays more and more people start learning foreign languages. Most of them do it for their job. Others to be more clever.

As for me, I disagree with people who think that learning different languages is a waste of time and money. I try to learn not only English, but Spanish to communicate with my foreigner friend from Spain. I met her in Canada this summer. I liked her language, so I decided to try learn it. But there are advantages and disadvantages. As for advantages, firstly, it helps you to become self-confidence. Especially when you are talking with foreigners. Secondly, if you have excellent knowledge in different languages you can find a good paid job and become a successful businessman. And thirdly, you can make friend with foreigners and learn something new and interesting in their culture. As for disadvantages, you can't remember lots of rules of grammar and pronunciation.

In conclusion, I'd like to advice you to learn new languages. I think it is important for your future life.
