Writing

Recently I have been in the cinema. There was a greatful movie in genre science-fiction. I really enjoyed it!

Its name is "Divergent". This film is about the city last city on the Earth. Around of this city there is wall. Every person in this city is related to one of five groups: Clevers, Honests, Powerfulls, Kinds and Altruists. Every person can own only one of these things. When person is sixteen years old he passes special test which helps him to understand who is he. But. Not everything is so simple.

There was one girl who reached sixteen and passed the test. But she had more than three things and that's why she began to be named "Divergent". That means that she has several things. It was impossible as everybody thought. But it turned out possible!

As she The name of that girl is Beatris. As she had more than three things she could think wider and she began to understand that there was something strange in the city. She found out that this city is only science experiment, which was inereddible! I would recommend this movie for people who like science and mystery. People would like the plot of this movie because of its extraordinary.
