Writing

Gr People and technology is a big question today. Phones,  
Gr computers, machines ~~and~~ etc... is a part of our life.

Technology is a good helper for us. We don't imagine  
Gr life without this. ~~But with that technology~~ But, of course,  
Gr new technology <sup>n</sup> have a some problem.

W/o People think that with phones we don't see the real  
life. Social sites ~~saves~~ us from real problem. But I  
Gr think what ~~the~~ technology helps ~~for~~ us more than does  
Gr new problem. And I guess what technology will affect  
our lives in the future.

Gr In the future we will travelling in space, ~~we~~ will open  
new planets ~~and~~ galaxies, we will use teleports. Scientist's  
Gr fantastic will be real life. And all of this ~~to~~ by new  
technology.

Gr I like technology. Because? is a something new and  
very interesting. And very important for us. Technology  
is a helper. We can chat with a humans, which live  
very far from us, can ~~see~~ look at them, can talk.  
And that's amazing.
